The multiverse is a hypothetical group of multiple universes including the universe in which we live. Together, these universes comprise everything that exists: the entirety of space, time, matter, energy, and the physical laws and constants that describe them. The different universes within the multiverse are called "parallel universes", "other universes", or "alternative universes".

During the third generation of video game consoles, tutorials which explained the mechanics of the game were rare. Instead, players learned how a video game worked through being guided by level design. The opening section of Super Mario Bros. was therefore specifically designed in such a way that players would be forced to explore the mechanics of the game in order to be able to advance.
