If there's one thing that can take you further, that can empower you to reach higher levels of greatness than you ever imagined possible, it's making one key thing a priority: the health and performance of your body. When your body is functioning in its peak state – when it's free from the inflammation, deficiencies, and toxic overload – you can do more, be more, and stress less.

The adaptive process requires that organizations move away from status quo. Most organizations, however, are designed as complex systems rather than complex adaptive systems (Stacey, 1995). Complex systems differ from complex adaptive systems in that they are structured for efficiency and control, rather than adaptability (Brown and Eisenhardt, 1997; Eisenhardt and Tabrizi, 1995).
